

Outdoor Environments

Classic Series

The Classic Series offers basic security features for indoor and general outdoor applications. New satin brass finishes and smoother rounded forms increase security whilst protecting the things to be secured. The original solid brass bodied locks have added design features such as double lock mechanisms or on some models, adjustable or shrouded shackles.

General Security

These padlocks offer basic security features for indoor and general applications. New Satin brass finishes and smoother rounded forms protect the things to be secured. They are built to act as deterrent to petty theft, or even for use as a personal security measure.
